3. Questions about 6th Grade

In order to relieve school overcrowding and to standardize school articulation patterns across MCPS, one set of proposals from MCPS involves moving 6th graders from North Chevy Chase and Chevy Chase Elementary schools to Westland Middle School (5511 Massachusetts Avenue).

1. How do you feel about the idea of your 6th grader (or future 6th grader) attending 6th grade at Westland Middle School instead of NCC or CC elementary school?

2. School administrators indicate that if 6th graders remain at NCC or CC elementary, they will NOT be taught using the same new curriculum that is being rolled out county-wide for 6th graders in middle school.

Does this change your response to the question above?

Yes (please write in a brief comment below to explain)

No

3. All proposals to relieve school overcrowding in our cluster will require several years to implement. In the meantime, 6th graders attend CC and NCC elementary schools.

Are you willing to assist with advocacy efforts to work with MCPS to clearly identify what education resources will be available to 6th graders who attend CC and NCC? Please choose all that apply.

No

Yes--You can count on me to do things like co-sign petitions.

Yes--I would be willing to attend local meetings on this subject

Yes--I am willing to make inquiries and demands on my own if provided with information about who to contact

Yes--I am willing to help organize this type of advocacy effort

4. Middle School Options

1. Do you think options to relieve school overcrowding in our cluster should include building a new middle school located closer to our community?

Yes

No

2. If a new middle school was located closer to our community (e.g., at the Lynbrook Park site in downtown Bethesda but knowing that a boundary study would determine who would attend), how would you feel about your current or future 6th graders attending this new middle school for 6th grade?
